ILSI Ordinary General Assembly, 2018

San Jose Costa Rica. On February 6, ILSI Mesoamerica held its General Assembly for this 2018. This time it was attended by most of the industrial partners, academic allies, as well as special guests.

As part of the scheduled agenda, reports were presented by the Presidency, Treasury, and the Office of the Prosecutor.

Our Executive Director, Dr. Hannia León presented the Work Plan as well as the general budget for this year 2018.

Later, the process of election of the positions for Board of Directors was carried out. The Assembly unanimously decided to re-elect all the positions that were open for election.

The assembly ended with a scientific session. It included two key projects that are worked by our branch

1- Validation of control measures to reduce pathogens and ensure the safety of three artisan dairy products produced in the Mesoamerican region, by Dr. Jessie Usaga.

2- Latin American Nutrition and Health Study (ELANS) Phase II Costa Rica, by Professor Georgina Gómez.
